

To whom it may concern,

I wanted to force my concerns about LPFM. I live near Jacksonville, FL and currently enjoy listening to AIR 1. AIR 1 is a good, clean, family radio station. It is something I can listen and do not have to monitor it while I have clients in the car with me. I beleive I live in a better community because I have AIR 1 to listen to. AIR 1 would be displaced by an LPFM broadcaster providing other programming. I beleive AIR 1's service is of public interest in my community. Please don't take away this freindly becon of hope in my local community.

Thank you for your time.
